CHANNEL - IT™

ADD A NEW DIMENSION TO YOUR BLINDS

PRIVACY, INSULATION, LIGHT CONTROL, WIND PROTECTION, NO BOTTOM GAP*

- Enclose a patio or pergola and keep the weather out, but still have the flexibility to open it up as required.
- Stop the sunlight streaming in on the sides, particularly on a bay window.
- Ensure your privacy, no one can sneak a peak around the side of the blind.
- Keep the heat completely away from the window (depends on your choice of fabric)
- No protrusions to hit or bump when used in narrow access areas.
- Simple, easy operation, low maintenance.

During installation CHANNEL-IT blinds can be configured for:

- Spring, Gearbox or Electric Motor drive.
- Stopping in multiple positions.
- Fitting flush to the floor (if the floor is level and flat).
- Rolled up fabric enclosures.

Australian Made & Designed.

When you want the blind to look the part, CHANNEL-IT is the choice to make

CHANNEL-IT ensures your privacy, no one can look around the edge of the blind, when the blind is down it adds to the security of your home.

CHANNEL-IT will help in insulating the home from weather extremes, by keeping out the rain, keeping the wind away and reducing the glare of a hot day.

CHANNEL-IT controls the light getting into your room. Beside any translucency of the fabric, light does not flood in on the sides as in standard blinds.
